

Jankalyan Bahu-Uddeshiya Sevabhavi Sanstha Kodoli Tal. Panhala Dist. Kolhapur

Last 3 Years Activity Report

The Public Charitable Trust emerges from noble ideas conceived by a person/a group of persons from society who are emotionally moved by the needs of a common man. Trust is known for sacrifice and selfless service to society. However, management of a trust requires social discipline which enacts for transparent purpose.

Janklyan Bahu-Uddeshiya Sevabhavi Sanstha, Kodoli [Multi-objectives Non-Government Organization] is established lawfully to serve society. The name of organization reflects itself its prime aim.

The Executive Council members are with diversified experiences and concepts for welfare of people who have assembled together and registered this trust on 13 December, 2016 and 18 May, 2017 respectively by the concern authority. The Memorandum of Association is approved by the Public Charity Commissioner. The fundamental objectives are regarding – Education, Medical, Religious, Environment, Social, Farming, Science, Technology and Sports for all people in all layers of society with emphasis on needs of ordinary woman/man.

Though it feels that there is development in Socio-cultural structure of society by many ways such as science, technology, knowledge, etc. however, it is an assumption. It is an attempt of this institution to make platform/base and provide ideas to motivate people in order to think over it and to follow. People welfare concept emerged in the mind of College Principal Balasaheb and it pushes to register this trust with welfare purpose for society.

To make better and develop society various factors play significant role. Among them keys are Education, Medical, Religion, Environment, etc. are included in trust objectives. The issues are there in relation to these subjects due to its over use and/or implementation method and approach. To strengthen people, that objective of the organization aims to arrange/start programs/activities such as – possible help, counseling, functions, guidance, training, centers, for people. In fact, it's a challenge before trust to arrange infrastructure, money, convincing people and making them together, their expectations, needs, and many other things. Consequently, the organization has to face difficulties and cross hurdles (like illiteracy, traditional beliefs, etc.), understand diversified issues/problems in the way of mission for people welfare.
